

RAJ PUMPS

Simply The Best

Non Clog Pumps

RAJ PUMPS horizontal centrifugal Non-Clog Self Priming Mono block / Electric Motor coupled & Diesel Engine Coupled Pumps.

Back-pull-out construction is convenient for maintenance and troubleshooting. Daily maintenance can be performed rapidly by common hand tools, saving time and labour. Stable performance & reliable operation

Features

- Quick automatic self priming action
- Designed for automatic air release during priming.
- Non clogging impeller to handle suspended solids
- Repairs possible without disturbing pipe connection due to back pull out design
- No need for foot valve
- Long Life - Due to replaceable wearing parts

Applications

- Marine : Pumping water from docks, ports, vessels
- Industrial : Pumping Petroleum products, chemicals, ash water etc.
- Civil Construction : Dewatering from shallow tanks/underground tanks etc.
- Air Conditioning Plants
- Water treatment Plant & Effluent treatment plant
- Wood seasoning plant
